Your Move

A program that helps reduce car use and encourages more walking, bike riding, and public transport trips to get around.

WALK & BIKE TO SCHOOL

TAPORI NEWSLETTER*417, March-June 2018

Activity A - Presentation

We presented the Ventilla Tapori from Madrid and what they did. **Would you like to introduce yourself too?**

You can do it in a creative way, through images, objects, words, or in presenting what you are doing right now.

Activity B - Journalists in your own neighborhood

The Ventilla Tapori group went around their neighborhood to interview the adults on the European Social Charter.

Would you like to become a journalist like them? Here is what you can do:

1. Choose a theme: from a situation in your neighborhood, your community, or in your school, say why it is important for everyone.
2. Prepare 2 or 3 questions for an interview about the theme you choose.
3. Make your video camera following the instructions on Activity C. You can ask an adult to help you.
4. Look for an activity to do as a follow-up of your interview.
5. Send to Tapori what you did with the interview.

Activity C : Making a video camera.

Here is what you will need, but **you can also use other things that you find around you.** Now, you can begin!

- 1 cardboard box, a plastic bottle.
- 3 toilet paper rolls or cardboard tubes
- 1 empty bobbin of sewing thread or a small part of a branch or...
- about 3 feet of thick cotton thread or thin cord
- some masking tape and glue
- a few sheets of newspaper
- a set of paints
