Happy National Ride to School Day! National Ride to School Day is where all students and families are encouraged to ride to school and enjoy the wonderful weather that we are having at the moment. As part of a Your Move School, we like to celebrate this day and recognise those students who make the effort and do ride to school. To celebrate National Ride to School Day, yesterday, 23 March, we held an event for all students in year 1-6. This included a track around the school for students with scooters and bikes to ride around at their break time.

All the students loved riding around the school and trying out the new track yesterday. There were plenty of smiles, laughter and encouragement from the students and it was great to see so many Beenyup STARS both off and on the track. We will be having more Ride at School events as well as some other cool initiatives next term and in the near future, so please keep an eye out for this notices.
