

Swan View Primary 'Your Move' in 2024

We are very excited to enter a new and active journey with 'Your Move' in 2024.

We are committed to encouraging a more sustainable and active lifestyle which aligns with the values of Swan View Primary School. We aim to work together to create a community which promotes alternative transportation to school each day and working towards a greener tomorrow for everyone.

We have already conducted our first 'hands up' survey on Monday 26 February 2024 about how we all get to school each day. Our team looked at the results which showed we have reverted to using our cars to travel to school more than last year. We did note that our climate this year was a lot hotter than previous years which would have been a reason why we drove instead of walked to school.

Moving forward we are planning our Ride to School Day on Friday 15 March, please pencil this in your calendar. This is a good time to start a new practice of coming to school by either, riding, scootering, walking, or catching a bus. Let's all make a commitment to change our habits of driving to school each day to help save our environment.
