

## Albany Primary School

### Michelle Gust

Michelle has been instrumental in setting Albany Primary School on its active transport path.

An active Albany Primary parent, Michelle has built many partnerships within the school community and stakeholders.

Michelle achieved some fantastic results as a Your Move Champion:

- Founding the Albany Primary and Albany Senior High School Road Safety Committee
- Being the key driver for special events such as Walk and Ride to School Days and applying for the Connecting Schools grant to install a bike repair station
- Being instrumental in advocating for and achieving supervised crossings near the school
- Ensuring the sustainability of the program by recruiting other parents to the Your Move team.

## Piara Waters Primary School

### Ann-Marie Heard

Ann-Marie has worked across the school and the wider community in her role as Community Liaison Officer, meeting regularly with a group of passionate parents working to promote active travel for students.

Working with staff, Ann-Marie helped create the Walk to School Strategic Plan, resulting in the fortnightly Walk to School Wednesday events. These events are hugely popular, with up to 500 students and their families attending, and one Year Six class regular achieving 100 per cent active travel!

## Lakelands Primary School

### Amy Ham

For the past four years, Amy has been coordinating and implementing active travel initiatives at Lakelands Primary School. Each year she selects a Your Move student team, and volunteers to develop fun and exciting ideas with students to capture the interest of the whole school with new ways to get more active.

Amy is responsible for conducting Hands Up Surveys each term to track results, promoting Your Move to students and parents and hosting events such as Footprint Friday and scavenger hunts.

## Baldivis Senior College

### Jessica Truss

Jessica is the coordinator of the Student Green Team, and works with students to deliver Your Move initiatives with persistence, energy and optimism. Jessica focuses on providing opportunities for students to become change agents for sustainability.

As a change leader, Jessica has negotiated for active travel choices to be embedded within the Science curriculum, also running a training session for the Year Seven Science teachers so they too could get involved.

Having played a major role in changing induction and enrolments, Jessica helped ensure it is now standard practice for families to be given active travel maps and materials about active transport options.

## Coolbinia Primary School

### Elaine Lewis

Elaine has a passion for active travel, achieving some great results for Coolbinia Primary. Regularly collaborating with other teachers to integrate active travel initiatives into classroom programs, Elaine has steered the whole school towards promoting independent travel options for students.

She is aiming to reach the school's 100 Tonne Carbon Emission Reduction Target.

Through her action in encouraging active travel, Elaine has reduced emissions by an average of eight tonnes per month.

In 2018 Coolbinia Primary School achieved Double Platinum in the Your Move program, which would not have been possible without Elaine's pivotal efforts and dedication.

## Victoria Park Primary School

### Leanne Lee

An active Your Move team member at Victoria Park Primary School, Leanne established a Walking School Bus service to encourage local students to walk to school safely.

She surveyed families for interest, identified routes, got volunteers on board, and produced maps. The service commenced in term three, with four Walking School Buses running each week.

Leanne dedicates one morning each week to walking with the students, and is regularly in touch with the other volunteers to ensure smooth running of the service.

The Walking School Bus has increased walking numbers, and is building awareness across the whole school community.
